Turning a cold shoulder on the Contras...

Don't blame CIA, blame Congress

JACK Anderson's column of July 11 accusing the CIA of recruiting, supporting and then abandoning guerrillas fighting the Communists is misleading.

The CIA can do nothing if

Congress cuts off the funds.

That is exactly what the Democratic-controlled House of Representatives has done in the case cited in Anderson's column.

The Contras and Indians

fighting the Sandinistas have been abandoned and left to fight without enough food or bullets because of Congress and not because of the CIA.
